Recently we added a new Vacant Home program, after reviewing the program we have found that some changes would need to be made to help us meet the needs of our residents. Our original form was created for the various requests that we receive throughout the year from homeowners going on vacation or leaving the area on a short term basis. However when we rolled out the new program we received a significant amount of applications where the homeowners were requesting long term checks that did not meet the criteria or only wanted to leave us their contact information. In order to give residents a way to leave us their contact information we created a second form that is a homeowner contact information sheet. Our officers conduct random residential property checks throughout the off season but would be unable to meet the burden of consistently conducting long term vacant property checks.

If you have already given your information via the Vacant Home application you will not need to resubmit it on the Contact Information Sheet.

Vacant Home Program:

This is for homeowners who will be away from the residence for 21 days or less.

If anyone will be at the property during your absence If anyone is going to be at the property during your absence such as neighbors, a property manager, pet sitter, contractors, etc... The home will not be eligible for this program.

This application must be dropped off in person with our records department Monday – Friday between the hours of 9:00 AM and 3:00 PM, so that it can be reviewed to ensure that all the necessary information is present and it meets the criteria.

Contact Information Sheet:

Can be filled out and mailed into our records department or completed in person and dropped off with our dispatch or records department at any time.
